contracts may be made for it in NEW YORK.

FRIDAY, MARCH 4, 1887.

The country is safe, but stand to your

guns. Saskatchewan must fall to them.

THE LIBERAL PARTY AND THE

NORTHWEST.

It is said of Sandfield Macdonald, that

once, on receiving an invitation to visit

the town of Strathroy, he replied:—"To

Strathroy done for me?" No, now that the

Liberal party are bidding for our support

we are justified in asking, "What

have the Liberal party done for the

Northwest? Why should we support

Mr. Blake in preference to Sir John

Macdonald? What claim has Mr. Blake

upon us?" Who built the C. P. R. and

kept faith with British Columbia. Not

Mr. Blake, whose "snail policy" would

not have secured its completion during

this century. Who called the Northwest

a "sterile waste," and endeavored to

show that nobody could ever the country?

Not Sir John Macdonald—no Con-

servative, but Mackenzie and Blake, for

proof of which we refer those who may

question the truth of our statement to

the Hansard of 1880, April 15th and 16th,

especially page 1,454. For two days these

two Liberal and patriotic (?) statesmen

endeavored to prove that the Northwest

was only fit for Indians to live in. It is

true Mr. Mackenzie's opinions have un-

dergone a change, but only since he made

a trip to the Rockies over a railway

built in the face of the opposition of the

Liberal party, and through a country

they had characterized as a "sterile

waste." We are not aware that Mr.

Blake has changed his mind with regard

to this country, but it is possible that he

has now that he is in need of supporters.

But we should remember that the

pioneers and later settlers of this

country owe Mr. Blake nothing. He

has never been our friend. He has never

been west of Ontario, and he has not the

confidence of even that Province.

On the other hand, Sir John Macdon-

ald, Sir Charles Tupper, Sir Hector

Langevin, Sir Adolph Caron, Hon. This,

White, Hon. Mackenzie Bowell, Hon.

John Costigan, Hon. Mr. Foster, and

other members of the present Govern-

ment have been in the Northwest and

British Columbia, and are not only con-

versant with the wants of the Northwest,

but are determined in the future, as in

the past, to do their duty to the North-

west despite the opposition of Mr. Blake.

No man is more deserving of the sup-

port of the people of the Territories than

Sir John Macdonald. No man ever

brought his national schemes to a

greater success than he. Electors of

Saskatchewan, let it not be said of you

that you chose rather to cast your vote

in support of Mr. Blake than a states-

man whose life has been devoted to the

service of his country, whose name is

linked with the grandest national work

of any age, and will shed a lustre upon

our history for all time to come.

Vote for Sir John, the friend of the

Northwest.

A WORD TO THE METIS.

We wish, now that the time is ap-

proaching when we will all have to de-

cide who shall represent us in the House

of Commons, to give our reasons why we

think our fellow settlers, the Metis,

Ottawa as we are west of that point.

He was Minister of the Interior for three

years, but neglected the interests of the

Metis during that time, and his succe-

sor, Hon. David Mills, did likewise. As

Lieut. Governor of the Northwest, Mr.

Laird doubtless did his duty, but he was

well paid. Any gentleman of average

ability could have filled his position

with equal credit. What claim, there-

fore, has he upon us. More than this, he

comes here on the invitation of the

party opposed to Sir John Macdonald,

the present Premier of Canada. He

comes here on the invitation of the party

who, as Archbishop Tache says, "de-

clared and asserted, in 1873 the impris-

onment, sentence of death and banish-

ment of the Metis chiefs, and for the

others a partial amnesty, which we had

been offered before and which we had

refused. The men who could do these

things are not the friends of the Metis.

Are we to placate destinies in the hands

of these men? I think not." But the

party to which the Archbishop re-

fers, and to which Mr. Laird belongs,

were defeated in the late elections. The

people of Canada have refused to place

their destinies in the hands of Mr. Blake,

and while we would be foolish to vote for

Mr. Laird in any case, it would be in-

finitely more foolish under the present

circumstances. We must look after our

own interests, not Mr. Laird's. He is

nothing to us. Let him go as he came,

an ex M. P. Better men than he have

suffered worse disappointments with less

reason.

As for Mr. Macdonald, he needs no in-

troduction to the Metis. While member

of the Northwest Council he drew up

the first memorial on the Halfbreed ques-

tion submitted to the Dominion Govern-

ment by the Council, and during his

term an representative he endeavored in

every way to forward their interests. He

is a resident of the district, has large

means, has invested a large amount of

money in the country, and, if elected, as

he should be, he will be with us for

the greater part of the year. Besides, being

a resident of the district he knows its

requirements, and since in forwarding

our interests he will be forwarding his

own, we have a guarantee that he will be

true to us. He is also a young man of

talent and education. His star is in the

ascendant, not on the decline. He is

not likely to sell himself and his con-

stituents for Government position, as his

large means enable him to be perfectly

independent.

We, therefore, claim that it is to our

interest as settlers of Saskatchewan,

without distinction to race or party, to

vote for Mr. Macdonald. We desire,

of course, that he should be elected be-

cause he is a supporter of the present

Government, but we desire it also from,

perhaps, a purer and higher motive.

We desire it because we would have our

fellow settlers the Metis to understand

that our interests are the same, that

whatever benefits them benefits us, that

whatever injures them injures us, and

that only as a united people can we hope

to make our wants known and secure

them. Let the past be buried, let us

unite in support of a fellow settler, and

let peace and goodwill prevail through-

out the length and breadth of Saskatche-

wan.

THE M. N. W. RAILWAY.

Mr. Stewart, Chief Engineer of the

Manitoba and Northwestern Railway,

arrived in town last week. He came

across the country from the end of the

track, by way of York Colony and Car-

rot River. The object of his trip was to

ascertain the lay of the land, and to find

a suitable crossing on the South Branch.

He was much surprised to find that

Prince Albert was a town of such

proportions, and that agricultural pursuits

were carried on in this district on so

large a scale. Mr. Stewart informs us that

it is the intention of the Company to

build one hundred miles of the line next

season, and that by the close of 1888, if

not before, we may expect to have rail-

way communication with Winnipeg.

He has given instructions to the people

of Carrot River settlement to put in all

the coarse grain possible next year, in

order that they may be able to supply

the Company with supplies of that

nature. It is also the intention to pro-

cure railway ties in this district next

season. As to where the station for

Prince Albert will be located we do not

know, but that it will be convenient to the

town we have no doubt. We are, how-

ever, less concerned in the exact location

of the station than in railway communi-

cation with the east, and shall be glad to

see the iron horse approach the town

from any quarter.

The advantages to be gained by the

M. N. W. in connection with this point

are many. By coming here the Com-

pany will not only secure the business of

this district, but will be able to secure

the trade of Battleford and Edmonton

during the summer season by placing

steamers of light draught on the river.

They will also be able to procure Edmon-

ton coal at a much cheaper rate than the

coal they now consume, and of as good,

if not better, quality. In fact the ad-

vantages to be gained by the Company

in making connection with this place are

so many and so great that we think the

railway cannot be built too rapidly.

Vote for Mr. Macdonald and a re-

doubled member.

FOR SALE.

The following, now lying on the bank of

the Saskatchewan, in winter quarters, 20

miles north of Swift Current:

TWO GOOD STEAM BARGES,

30 feet wide, 100 feet long, about 4 feet

deep, capacity about 20,000 lbs. each. Also

Two Beamster Hovel tables,

one of which is 11 inches thick and 1,300 feet

long, and the other one 10 inches thick and about

500 feet long. Any or all of the above may

be sold cheap and on reasonable terms.

To any one wishing to freight cheaply

from the railway to Prince Albert this is

one of the best opportunities to make

money, and for any one wishing to start a

ferry and secure a good cheap cable this is

their chance.

F. FRASER JAMES,

Swift Current.

Information to Electors.

The following is the qualification of

electors as prescribed by the Parliament

of Canada:—

Every person qualified to vote at the elec-

tion of a member under this Act shall be a

bona fide male resident and householder, of

adult age, who is not an alien or an Indian,

within the electoral district, and who has

been for twelve months immediately preceding

the date of the writ of election.

If any elector finds that his name is

not on the voter's list of the polling

division to which he belongs, he may

apply to the enumerator on any day be-

fore the polling day, and if the enu-

merator objects to add his name to the list,

he may require the deputy returning

officer, on the polling day, while the

poll is open, to cause his name to be placed

on the list on taking before that officer

the following oath:—

You do swear that you are a bona fide

male resident and householder, within the

polling division of this electoral district,

that you are of the full age of twenty-one

years, that you are not an alien or an Indian,

and that you have resided in the electoral

district for at least twelve months immedi-

ately preceding the date of the issue of the

writ for this election. So help you God.

Each elector may vote only at one

polling station and for one candidate

within the same electoral district.

Any elector wishing to record his vote

shall, in his turn, while the poll is open,

go up to the deputy returning officer,

state his full name, occupation, resi-

dence and place of residence, take an oath as

the deputy returning officer lawfully

puts him, and declare for which can-

didate he votes.

Every elector, after having voted,

shall quietly leave the polling station.

ALEXANDER SPROAT,

Returning Officer.

ELECTION NOTES.

A meeting of Mr. Macdonald's Central Committee will take place to-morrow night.

The Montreal Star says: "The cruel joke of the campaign is to get two Grits together and ask them to define the Liberal tariff policy. It invariably leads to a split in the party."

Vote for a member for Saskatchewan, N. P. Island.

The Detroit Evening Journal says: "The article in the Standard, of Toronto, to Sir John Macdonald's organ, to the effect that American manufacturers were 'coming down' handily in the present campaign, has fully verified the report that Diston & Co., the American saw makers, of Boston, had contributed \$25,000 towards the Government's defeat. Anything to smash the N. P. And yet the Grits claim to be, O such nice, patriotic, saintly people."

Encourage local talent and let P. E. Island do likewise.

Messrs. Macdonald, Hughes and Macdonald arrived back from Fort a la Corne on Wednesday. Mr. Macdonald held a meeting at the latter place, with very encouraging results. Mr. Letellier made his usual "race and revenge" harangue, and was replied to by Mr. Hughes, who showed up the treatment the Metis had received at the hands of Mr. Blake. Ft. a la Corne will give a majority for Mr. Macdonald.

From the former place Mr. Macdonald, Mr. Hughes and Mr. Macdonald proceeded to Carleton River, and held a meeting at Kintinook on Wednesday evening, at which most of the settlers were present. Mr. Macdonald addressed the electors at length, no one speaking for Mr. Laird. The majority of the settlers will vote for Mr. Macdonald, while Birch Hills will support him almost unanimously.

The Regina Leader says: "Mr. Laird is now realizing the unpleasant experience that all who get into the glitter, and that the promises of Prince Albert Grits are not like those of Joseph to Israel. The courage of his convictions the Prince Albert Patriot possesses not, but has an illimitable fund of wind and cowardice. To lure a public man of Mr. Laird's pretensions all the way from Prince Edward Island with glittering promises, and when he arrives at the scene of his anticipated conquest find that there is a lack of co-operation and support unexpected and most unaccountable is latter experience. In spite of what Grit journals allege to the contrary, this is really the unenviable position in which Mr. Laird finds himself as he pursues his canvass in the district of Saskatchewan."

The same journal says: "Mr. Macdonald has in addition to many other unanswerable arguments in his favor, the important one that he is a resident of the district in which he seeks the suffrages of the electors, that his lot is cast with the people of the district. On the contrary, Mr. Laird is an outsider, whose real interests are in Prince Edward Island and who is bound to give those interests the preference. The best experience is to the effect that outside representatives are never as efficient as those who reside in the district they represent. Another thing should be remembered, and this is that it will be many a day before Prince Edward Island would submit to be represented by a man from Saskatchewan. The rule that does not work both ways is said to be a poor one."

SCHOOL MEETING.

A public meeting took place in the school house on last Saturday evening, for the purpose of reconsidering the site for the new school. Mr. John Stewart in the chair.

Mr. A. H. Clarke contended that the site selected at the previous meeting should be kept, and moved the adoption of the minutes of that meeting.

Mr. J. L. Johnson moved in amendment, that the minutes of the previous meeting be rescinded.

Mr. McTaggart asked for explanations, but none were given.

Dr. Bain and Mr. J. F. Betts opposed the amendment.

The amendment was carried.

On motion to adjourn some discussion took place as to where the school should be situated.

Mr. J. MacArthur thought some children were compelled to come too far now, and thought the centre of the district was further west.

Mr. Waggoner thought the centre of the district was at the corner.

The trustees will advertise immediately for tenders for a new site.

TELEGRAPHIC.

Algonia Election, Northwest Territories, (Vote Elections, Ontario).

Mr. John Macdonald.

(By Special Telegrams.)

Winnipeg, March 3. Algonia election takes place to-day. Hon. Thomas White and Mr. Mackin took, who have been addressing meetings there, arrived to-day and will visit the Territories. W. T. R. Preston, organizer for the Reform Association, Ontario, and Proctor of Toronto, follow in the Liberal interest.

Sir Alex. Campbell has been appointed Lieutenant-Governor of Ontario.

No material changes have taken place in the result of the Dominion election. Conservative papers claim a majority for the Government of from twenty to thirty. The Liberals reduce the majority to ten, and sometimes figure out a tie. There is little doubt, however, that the Government has been returned by a good working majority.

The recount in the Kingston election resulted in an increased majority for Sir John. The Liberals reduce the majority to ten, and sometimes figure out a tie. There is little doubt, however, that the Government has been returned by a good working majority.

The recount in the Kingston election resulted in an increased majority for Sir John. The Liberals reduce the majority to ten, and sometimes figure out a tie. There is little doubt, however, that the Government has been returned by a good working majority.

Considerable damage has occurred to stock in the Northwest in consequence of storms this winter, but the late chinook winds have melted the snow and removed further danger.

Cardinal Jacobini, Papal Secretary of State, is dead.

The Prince of Wales has returned to England.

There have been further severe shocks of earthquake in Europe, but no further damage in consequence.

The Canada Gazette to-day contains a proclamation dividing the Northwest into judicial districts, and appointing Hugh Richardson, F. J. McLeod, C. B. Rouleau and E. J. Whitmore Judges of the Supreme Court of the Northwest Territories.

Col. Gilder, New York Herald correspondent, who started out to find the North Pole, arrived in Winnipeg to-day from Churchill. He intends returning in the spring to renew the journey.

POOR CONSOLATION.

Our Liberal friends have been claiming Sir Donald A. Smith, A. W. Ross, and Mr. Macdonald, as supporters of Mr. Blake. We will let those gentlemen speak for themselves.

Speaking at an open air meeting held at the corner of Notre Dame and Seignours streets, Montreal, on the evening of the 17th ult., Sir Donald A. Smith said: "He had not come forward as a candidate from personal motives. He spoke of the necessity of the protection given to the industries of the country by the National Policy under the Conservative Government, which policy he should support."

On the 17th ult. Sir John Macdonald received the following telegram from A. W. Ross, M. P. for Liger.

"Winnipeg, February 16. Regarding the classification of me, I am a strong supporter of your Government. I was elected as such, in face of strong opposition from the local Grit paper. I will continue to support the Government, thinking its policy much better for the country than that of the Opposition."

Mr. Mara telegraphs from Kamloops, under date of the 16th ult., that he has been elected by acclamation, and that he hopes his seat in the House of Commons may be as near as possible to Sir John.

Our Liberal friends are welcome to all the consolation they can derive from the above.

What does Saskatchewan owe P. E. Island that the former should elect a man in whom the latter have voted with confidence. Are we so lacking in local talent that we are compelled to accept the refusal of another Province as our representative. We think not.

A surprise party took place at Robert MacBeth's, Colleton, last Wednesday evening. The contractors were the only guests. Mr. Beth was the most surprised.

Some one broke the chandelier and thermometer in the Methodist church, Colleton, on Sunday morning last.

Electors of Saskatchewan, remember that no outsiders have been nominated to the other Northwest districts. They evidently have no faith in outsiders.

ELECTION NOTICE.

Electoral District of Saskatchewan.

Public notice is hereby given to the electors of the electoral district aforesaid, that a poll has been granted for the said district, and that such poll will be open on

Tuesday, the 15th Day of March, 1887,

from the hour of nine in the forenoon till the hour of five in the afternoon, in each of the following divisions, that is to say:—
